DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher Kinkade on 12/22/2008.

The application has been amended as follows:

On line 11 of claim 1, please insert the phrase --, in direct contact with the site surface when the base is placed against the site surface,-- after "mechanism" and before "that".

On line 14 of claim 1, please insert replace "a" with --the--.

The following is an examiner's statement of reasons for allowance: The prior art did not disclose or render obvious a needle device comprising the combination of limitations recited in claims 1 and 28. The closest prior art to the claimed limitations is Elan Corp (WO 99/22790). In regard to claim 1, Elan fails to disclose the recited retraction mechanism that is in direct contact with the site surface when the base is placed against the site surface. The retraction mechanism of Elan (spring 22) is designed so that it must be placed against the lip of element (20) so that it can retract the needle after use. Therefore, it cannot be interpreted as being in direct contact with

the site surface when the base is placed against the site surface as the lip will always block the retraction mechanism from the surface. Furthermore, it would not be obvious to modify the device with the recited mechanism as this modification would render the device inoperable. In regard to claim 28, Elan fails to disclose a base with a first and second opening and the recited retraction mechanism. The base of Elan cannot be interpreted as having two openings nor is the retraction mechanism responsive to contact with the site surface through a second opening.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to THEODORE J. STIGELL whose telephone number is (571)272-8759. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
